

Becky Baltz, District Engineer

SINGLE FEASIBLE SOURCE PURCHASE POSTING NOTICE

The Missouri Department of Transportation has determined that only one source can provide the products or services described below

Title: SFS 7-110405 Wavetronics Radar Detection System

Description: The Missouri Department of Transportation District 7 has determined that only one known source can provide the department with the capabilities of the Wavetronic Radar Detection System. This system will be installed at a signal which is a span wire intersection (diagonal span), with no right of way on two corners and very little right of way on the other two corners. These circumstances rule out the use of other detection systems efficiently. The vendor for this system has demonstrated that their radar presence detection system will work efficiently with minimal installation cost and time, and no pavement intrusion.

Contract Period: Single Purchase

Renewal Options: N/A

Agency: Missouri Department of Transportation

Supplier: Mid America Signal

Buyer: Cathy Bay

Phone Number: 417-621-6354

E-Mail: Cathy.Bay@modot.mo.gov
